that this is a well written, analytical, non-defensive report with  
good analysis, strengthened

- It is unclear how Rita's adult children were contacted. This should be clarified, and it also should be detailed if they were provided with the Home Office and advocacy leaflets.
- More context around what actually happened in the case in the executive summary would be useful.
- Language and anonymity:
  - The opening impact statement uses the victim's real name at one point. Please use the correct pseudonym: psek1 261 6841.9200460577 1 308.95 62.02 Tm0 g0 G(u)-3(
