Application for Prior Notification of proposed development in respect of permitted development by telecommunications code systems operators form Show the direction of North and proposed development in relation to the site boundaries and other existing buildings, both on the site and adjacent to it, with dimensions including those to the boundaries. The site plan should also include the following, unless these would not influence or be affected by the proposed development: All buildings, roads and footpaths on land adjoining the site including access arrangements; All public rights of way crossing or adjoining the site; The position of all trees on the site and those on adjacent land; The extent and type of any hard surfacing; and The type and height of any boundary treatment including walls or fencing where proposed. Evidence that the developer has given notice of the proposed development in accordance with A.3(1) of part 24 of schedule 2 to the

Town & Country Planning (Geneneral Permitted Development) Order

 On paper size less than A2 and at a typical scale of 1:50 or 1:100, (existing & proposed should be at a similar scale to aid comparative study) scale annotated on the plan

- Elevations Plans showing details of all existing and proposed elevations (If relevant). These should show clearly the proposed works in relation to what existing. All elevations of the proposal must be shown and these should indicate, where possible, the proposed building materials and the style, materials and finish of windows and doors. Blank elevations must also be included. Where a proposed elevation adjoins another building or is in close proximity, the drawings should clearly show the relationship between the buildings, and detail the positions of the openings on each property
- Floor Plans These should explain the proposal in detail. Where
 existing buildings or walls are to be demolished these should be clearly
 shown. The drawings submitted should show details of the existing
 building(s) as well as those for the proposed development. New
 buildings should also be shown in context with adjacent buildings,
 including property numbers where applicable.

range of supplementary information including the area of search, details of any consultation undertaken, details of the proposed structure, and technical justification and information about the proposed development.

- Planning applications should also be accompanied by a signed declaration that the equipment and installation has been designed to be in full compliance with the requirements of the radio frequency (RF) public exposure guidelines of the International Commission on Non-Ionizing Radiation Protection (ICNIRP).
- Emissions profile/graph showing the range of the emissions from the antennae
- All prior approval and full planning applications need to provide evidence of consultation with local schools and day nurseries.
- All applications for masts within 3km of Birmingham International Airport must provide evidence of consultation with <u>Birmingham</u> International Airport
